All Highlanders are requested to be present at the meeting next Monday night.

Some of our farmers expect to begin gathering corn next week, but the majority of them will wait a week longer at least.

There is no excuse for an able bodied man being idle these days, and the old and feeble get mighty lonesome, as they have no one to gossip with.

The first quarterly conference of the Methodist churches at Nemaha and Howe will be held at Nemaha next Monday afternoon at 2 o'clock. Presiding Elder Wright is expected to be present.

Earle Gilbert says that while the ladies are all getting the latest styles in hats, he can assure the gentlemen that he has the latest in hats for them, suited to all ages, sizes, shapes and complexions.

Ralph Ritchey is rejoicing over a new automatic cheese cutter. He doesn't have to guess at the size of a ten cent slice of cheese now, but can cut it off and wrap it up without weighing, assured that neither the firm nor the customer are cheated.

L. L. Coryell of Auburn, president of the Nemaha county Sunday school association, will be in Nemaha Sunday and desires to meet the Sunday school workers, and especially the teachers and officers, at the Christian church at 2:30 Sunday afternoon.

Lew Argabright, who has been at Scott's Bluff, Nebr., for several weeks, came home sick Monday. Dr. Frazier, who is attending him says his stomach is in bad shape, caused by drinking alkali water. He is also suffering from biliousness and intermittent fever. It is hoped with good doctoring and mother's nursing he will soon recover.

At a meeting of the directors of the Bank of Nemaha, held last week, the old officers were all reelected—Wm. Campbell, president, F. E. Allen vice president and Elmer E. Allen cashier. Frank Titus was elected assistant cashier. The bank is in a prosperous condition and doing a good business. During the past year one of the best bank buildings anywhere around, for its size, was built.

J. H. Seid had four Poland China hogs on exhibition at the stock show at Auburn last week and carried off three first prizes and one second. The week before he had 12 on exhibition at the county fair and carried off three sweepstakes, five first premiums and three second. He got sweepstakes for any age or breed, sweepstakes on herd, sweepstakes on male and five of his get, first on aged male, second on aged male, second on two-year old sow, first on yearling sow, first on sow under 12 months, first on sow under 6 months, second on yearling male, and first on male under six months. He also got six first premiums and thirteen seconds on apples, several premiums on corn, first premium on 3-year-old colt, first on yearling colt, and second on suckling colt. He certainly made a good showing.

A traveling sign painter struck Nemaha Saturday and got considerable work to do.

Abe Lawrence will make one of our best working members of the legislature. He is also a good talker, and will hold his own with other members.

Congressman Pollard made many friends during his brief stay among us last week. He has the faculty of making friends of those whom he meets.

Lost—The endgate to my wagon, last Thursday between the farm and Nemaha. Finder please leave at postoffice.

WALTER L. THOMPSON.

Charley Parker got the freight and express rates on fruit reduced and thus saved our farmers and fruit growers large amounts. They should remember this when they go to vote.

Nat Titus and a number of men and boys went to Glen Rock precinct Sunday and are busily engaged picking, barreling and shipping the apples from the eighty acre orchard in that precinct.

Whoever heard of such a thing in Nebraska? The price of pears and potatoes are the same. Nice pears can be bought for 60 cents a bushel and we are having to pay the same for potatoes.—Peru Pointer.

Charley Hacker's experience as county clerk will serve him well when he is county commissioner. He knows the routine work, and as he is well acquainted with the county it will take him but a short time to be one of our best commissioners.

J. W. Armstrong made one of the best working members of the legislature when he was a member of that body. He is an energetic, capable man, and will make a representative of whom Nemaha and Johnson counties will feel proud.

Dr. Lale Andrews is now located at St. Louis. After spending the earlier part of the summer at El Paso, Texas, he decided not to remain in the southwest, and the middle of July went to Hot Springs Arkansas, where he remained until the first of September when he went to St. Louis—Stella Press.

A Young Mother at 70

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters which have completely cured her and restored the strength and activity she had in the prime of life." writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood, and cures Malaria, Biliousness and Weaknesses. Wonderful Nerve Tonic. Price 50c. Guaranteed by Hill Bros drug store.

A Rich Strike

Last week Wm. Anderson of this city received word from his son, Charles Anderson, who has charge of the Auburn Gold Mining company's plant at Mystic, S. D., that a big strike had been made in the workings of that company, and the officers of the organization were also notified.

The company has always possessed good placer deposits and large pumping plant for washing the same, but there has been delay on this work from various unavoidable causes, chief of which was the determining of the exact process for saving the fine placer gold. While engaged with this problem, work along other lines of mining has been busily going on, however.

There is an enormous body of ore which out-crops in a number of places, and can be traced for about half a mile across the company's claims. In order to determine to some extent the magnitude of this vein of ore, while the other work was going on, Superintendent Anderson has been busy with a force of men and a steam drill driving a tunnel 5x7 feet to strike the ledge as that was estimated would be a distance of 120 feet. The drillers went only ten feet beyond this distance, or at the end of the 130-foot drift, they struck a ledge of quartz about 20 feet in width which assays \$7.40 per ton gold.

With this new find of quartz which is now in easy access, together with improvements on the placer mining work, the company should soon be deriving a good revenue from both. As the ledge is further developed the quartz will no doubt assay higher and higher in gold values, as is often the case. The tunnel has now been drifted in to a depth of over 130 feet and lies 120 feet from the top of the mountain.

A letter received by one of the officers of the company the first of the week gives even more encouraging news. An assay of the vein extending through the entire ledge finds that it increases the value of the ore to over \$9 per ton. The first tailings of the product assayed \$1 per ton and the second tailings a little over 60 cents. This is highly encouraging news and the officers of the company are jubilant.—Auburn Herald.

Beginning in The Housekeeper for October is the first of a series of articles on Japan by Marian Bonsall, the associate editor, who has been in that country for practically a year gleaning the material which comes under the general head, Oriental Ideas for Western Women. The first article is "The Simplicity of Home Life." As Miss Bonsall had the almost impossible opportunity of being a member for several months of the household of a family of the class from which many of the most famous of the Japanese heroes have sprung, the Samurai, this article is exceptionally instructive and at the same time equally entertaining. The series will continue for several months. In addition to the fiction, Dr. Kate Lindsey writes instructively of the preventions to take in case of sudden illnesses and there is a practical article on "The Pantry" by Mary Taylor-Ross. The fashion pages are devoted to the late fall and early winter styles. There are also the many helpful departments The Housekeeper Corporation, Minneapolis Minn. Sixty cents a year.

Our farmers have in the past complained because more farmers were not sent to the legislature, to congress, etc. This year the republicans nominated two farmers for the legislature. The opposition nominated a lawyer and a man who has spent most of his life in the school room. The republicans nominated a farmer and fruit grower for congress. The opposition nominated a lawyer. If the farmers want to be represented they should vote for farmers when nominated.
